QUALITY POLICY

ELECTROMECSA is committed to meeting the requirements of stakeholders and legislation for:

**Construction, maintenance and operation of industrial – energy
– E/M projects, building projects, renewable energy projects,
construction & maintenance of traffic signaling installations**

ELECTROMECSA is committed to continuous improvement of the Quality Management System, applying a procedure for the establishment and review of the Objective Purposes, which are:

- growth through increasing human resources
- providing optimal solutions for customer needs
- immediacy in the design and implementation of projects
- developing a flexible and reliable supply network
- maximizing customer satisfaction

The above is achieved through:

- The implementation of a Quality Management System in accordance with the requirements of the ELOT EN ISO 9001:2015 standard
- The definition of quality objectives in its operations in order to enhance the satisfaction of the interested parties
- Defining responsibilities and powers
- The control of the services and processes of the Quality Management System.
- The creation of a technologically modern and professionally appropriate work environment.
- Management's commitment to provide all the necessary resources in order to improve the applied Quality Management System

The Quality Policy is reviewed for its continued suitability and is sought to be understood at all levels of the organization.
